Data Element: MTF Location
Position: 7 – 8
Length: 2

Definition: The state location code of MTF, the overseas country location code of MTF or vessel location code.

Enter the appropriate state location code of MTF, the overseas country location code of MTF or vessel location code. For Table of Organization and Equipment (TOE) units, this is the deployment site, not the garrison location.

Data Element: Register Number
Position: 9 - 15
Length: 7

Definition: A number used to identify a hospital admission. The number is unique within the reporting medical treatment facility.

Enter the appropriate register number for each admission to include absent sick live-born infant, and carded for record only (CRO) cases. For Table of Organization and Equipment (TOE) units contact Data Input Section for verification of the starting Register Number. The Register number are to continue consecutively and the series are not to be interrupted. Hospitals with CHCS will have register numbers automatically assigned.

The range is 0000001-9999999.

Data Element: Last Name
Position: Free Text Field
Length: Free Text Field

Definition: A person's surname.

This is a free text field that should be completed using the person's identification card or obtained from interview with the patient if the patient has no identification card.

Data Element: First Name
Position: Free Text Field
Length: Free Text Field

Definition: A person's given name.

This is a free text field that should be completed using the person's identification card or obtained from interview with the patient if the patient has no identification card.

Data Element: Middle Initial (MI)
Position: Free Text Field
Length: Free Text Field

Definition: The first letter of a person's middle name.

This is a free text field that should be completed using the person's identification card or obtained from interview with the patient if the patient has no identification card.

Data Element: Pay Grade
Position: 16 – 17
Length: 2

Definition: A code used to indicate a person's monetary compensation based on his/her position in the military hierarchy.

Enter the patient's pay grade held on the day of admission to your MTF. Enter the pay grade code for military members of all components, including retirees of U.S. services and foreign military members. For all other non-military patients, leave this field blank.

Data Element: Sex
Position: 18
Length: 1

Definition: A code used to indicate sex. Enter the appropriate code for the patient's gender.

Code	Gender
F	Female
M	Male

Data Element: Date Of Birth
Position: 19 – 26
Length: 8
Format: YYYYMMDD

Definition: The date a person was born.

Enter in succession, four digits for year of birth; two digits for birth month (01-12); and two digits for the day of birth (01-31).

Name	Range
Year	1899-current year
Month	01-12
Day	01-31

Data Element: Age at Admission
Position: 27 – 29
Length: 3

Definition: The age of a person on the day he/she are admitted to the hospital.

Enter the patient's age in completed days, months, or years at the time of this admission to your MTF.

Name	Range
Live-born infant	00D
Less than 1 full day	00D
Less than 1 full month	01D-30D
Less than 1 full year	01M-11M
Patient age in years 1-99	01Y-99Y
Patient over 99 years	99Y

Data Element: Race
Position: 30
Length: 1

Definition: A code used to indicate the group with which an individual identifies based upon certain inherited physical characteristics.

Enter the appropriate code for patient. Do not use unknown "Z" for U.S. active duty (AD) personnel, Reserve and National Guard, or Service Academy Cadets.

Code	Name
C	Caucasoid (White)
N	Negroid (Black)
M	Mongoloid (Yellow)

Data Element: Length of Service
Position: 32 - 34
Length: 3

Definition: The number of days, months, or years of service the person has achieved.

This is a required field for Active Duty (AD). For all other patients, leave this field blank.

Do not use unknown "ZZZ" for AD Army, Navy, Marine Corps, or Air Force, Reserve and National Guard personnel or for Service Academy Cadets

For U.S. Uniformed Services personnel, foreign military personnel, and cadets of the U.S. Uniformed Services academies, enter the total length of all AD service as of this admission. Include all AD service during previous tours or enlistments, even if interrupted.

Code	Name
00D-30D	Less than 1 full month
01M-11M	Less than 1 full year
01Y-99Y	1 to 99 years
ZZZ	Unknown*

NOTE: Do not use unknown (ZZZ) for AD Army, Navy, Marine Corps, or Air Force, Reserve and National Guard personnel or for Service Academy Cadets.

Element Name: ETS (Expiration of Term of Service)
Position: Free Text Field
Length: Free Text Field

Definition: Date of ETS for military patients and dependents.

This is a free text field that should be completed using the date of ETS for military patients or the expiration date of Department of Defense (DD) Form 1173 (Uniformed Services Identification and Privilege Card) for dependents. For all other patients, leave this field blank.

Data Element: Family Member Prefix
Position: 35 - 36
Length: 2

Definition: A code used to describe the patient's relationship to his/her sponsor. This is a required
              field for all patients and may not be zero-filled. Enter the appropriate code for patient.

              01   1st child

98	Civilian emergencies	
99	All others, NEC	

NOTES:

Additional clarification for Patient Category/Family Member Prefix combinations:

According to currently established guidelines, which FMP codes are to be used with the following patient category codes? If more than one FMP code may be appropriate, please describe the criteria for choosing which one is correct.

K65	All contract workers (DYNA CORP, B&R, etc.) -	20
K78	Civilian in detention -	20
K91	Local national -	99
K92	Other emergency civilian -	98
K53	Federal civilian employee o/s -	20

20 - The prime beneficiary -- a person who derives his or her eligibility based on individual status rather than dependency on another person

98 - If the patient is -- a person brought to the MTF in an emergency

99 - If the patient is -- all others, not elsewhere classified.

Data Element: Social Security Number
Position: 37 - 45
Length: 9

Definition: A unique number assigned to person by the United States Social Security Administration. The SSN collected by CHCS is that of the patient's sponsor.

When an SSN is not available (e.g., civilian emergency, foreign military) a pseudo-SSN will be made up as follows:

First two positions:
    the digits 80

The third position:
    0-9 (to allow for multiple pseudo SSNs with the same birth date)

Fourth through ninth position:
    Date of Birth in YYMMDD format
    If the Date of Birth is unknown, use the admission date in the same format of YYMMDD

Enter the SSN of the sponsor (Active Duty, retired member, deceased member, member of the reserve components, or other prime beneficiary).

The range 001000001-809991231. This field should be completed using the person's identification card.

Element Name: Organization
Position: Free Text Field
Length: Free Text Field

Definition: Military patient's unit of assignment

                 This is a free text field that should be completed using the military patient's unit of
                 assignment at the time of initial admission or CRO. Enter the unit and country for foreign
                 military patients.

Data Element: Marital Status
Position: 46
Length: 1

Definition: The Marital Status of the patient.

                 Enter the appropriate marital status data code.   This is a required field for all patients.

Description	Abbreviation	Data Code
Annulled	Ann	A
Divorced	Div	D
Interlocutory	Inter	I
Legally Separated	Sep	L
Married	Marr	M
Single, Never Married	Sing	S
Widowed	Wid	W
Unknown	Unk	Z

Element Name: Hour of Admission
Position: Free Text Field
Length: Free Text Field

Definition: Patient hour of admission into hospital.

                 This is a free text field using the 2400-hour system. Enter the time the patient is
                 admitted.   For newborn infants, enter the time of birth.

Element Name: Branch/Corps
Position: Free Text Field
Length: Free Text Field

Definition: Branch for enlisted personnel and other service officers.

                 This is a free text field used to enter branch for enlisted personnel and other service
                 officers and corps for active or retired officers. Leave blank for all other patients.

Data Element: Flying Status
Position: 47 – 49
Length: 3

Definition: A one-position code used to indicate whether a military individual is or is not receiving flight pay.

Enter appropriate code in position 47 for those military patient's on flying status, code "Y" for yes. Military patient's not on flying status, code "N" for no. For all other patients, leave this field blank.

Leave positions 48 and 49 blank.

Code	Name
Y	Yes
N	No

A blank is valid for a non-military person.

Data Element: Beneficiary/Patient Category
Position: 51 - 52
Length: 3

Definition: A two-part code used to indicate the beneficiary group to which an individual belongs. A beneficiary is an individual who has been determined to be eligible for benefits.

Enter the appropriate code for U.S. Uniformed Services personnel (active or retire).

For civilian employees of Federal agencies, indicate the Federal department (i.e., Army, Navy, State, Education, Health and Human Services, Justice, Commerce, Labor, Treasury).

For foreign military personnel, indicate the nation and armed forces with which the patient is serving, such as Federal Republic of Germany, Army.

Leave blank for all other personnel.

Code	Name
A	Army
N	Navy
M	Marine Corps
F	Air Force
C	Coast Guard
B	National Oceanic & Atmospheric Administration
P	Public Health Service
K	Not U.S. Uniformed Services

The first part is a one-position code (as listed above) used to indicate the major category to which the beneficiary belongs. The second part is a two-digit code used to indicate a more detailed category.

Code	Name

Data Element: ZIP Code of Residence
Position: 53 – 61
Length: 9

Definition: The ZIP code of the person's residence

Enter the nine-digit ZIP code of the patient's residence for CONUS, Alaska and Hawaii. If the last four are unknown, zero-fill these positions. For outside continental United States (OCONUS), the Army post office (APO), or fleet post office (FPO) should be used. If zip code of residence is unknown, the MTF zip code should be used. This is a required field for all inpatients, CRO, and absent sick records.

Data Element: Unit Location
Position: 62 - 63
Length: 2

Definition: The state or country location code of AD patient's unit of assignment.

Enter the state and country code of active duty patient's unit of assignment. For units operating outside of their home station, this is the deployed location of operation. For soldiers not deployed with their unit, use the home base location. For patients undergoing permanent change of station (PCS), use the code of their last unit of assignment. This field requires completion for AD, Reserve, and National Guard personnel, and Service Academy Cadets.

See page 6 for the state and country location code list.

Data Element: Military Occupational Specialty (MOS)
Position: 64 - 70
Length: 7

Definition: A code indicating a person's primary occupation in the military. Use the code provided by the patient. Where the code is less than six characters, left justify.

Enter the MOS code for the AD patient from the list of codes. This field is left-justified; do not zero-fill. This is a required field for U.S. AD, Reserve, and National Guard personnel.

Data Element: Trauma Code
Position: 71
Length: 1

Definition: A one-digit code used to indicate, in general terms, the type of injury incurred.

When a trauma code is entered, a cause of injury must be coded, and at least one of the eight diagnosis fields must reflect an International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) injury diagnosis code from the 800 or 900 series, E930-E949, V71.3-V71.6, or 692.71.

Blanks are valid for non-injury cases.

Code   Name

Battle Wound/Injury

0   Direct result of action by or against an organized enemy (declared war only)
1   Other battle casualties

Intentionally Inflicted Non-battle Injury

2   Result of intervention of legal authority
3   Assault or intentionally inflicted by another person
4   Intentionally self-inflicted

Accidental Injury

ACTIVE DUTY ONLY:

5   Occurring while off duty (includes leave, pass, AWOL, and other off duty)
6   Schemes (maneuvers)/exercises
7   All other scheduled training (including basic training, assault courses, etc.)
8   Occurring while on duty, except as in 6 or 7 above

ALL PATIENTS:

9   Unknown whether on or off duty; nonmilitary injuries

Element Name: Previous Admission
Position: Free Text Field
Length: Free Text Field

Definition: The previous admission year of patient.

Enter the year of previous admission if patient had been admitted to your MTF whether for the same or for any other condition. If no previous admission, check "No." Note that this entry is made for local administrative purposes only to indicate existence of a record of previous treatment in your facility.

Data Element: Source of Admission/Authority for Admission
Position: 72
Length: 1

Definition: A code used to indicate the type of admission to the reporting medical treatment facility.

Enter the appropriate code for Source of Admission or Authority for Admission.

Code	Name
0	Direct to reporting MTF from ER
1	Direct to reporting MTF from other than ER
3	Active Duty direct to non-U.S. Armed Services hospital, never moved to a military hospital (Total Absent sick, MTF of initial admission must be coded)
4	Initial admission to non-U.S. Armed Services hospital, moved to a military hospital (AD only) (Absent Sick then admitted, MTF of Initial Admission and MTF Transferred From must be coded)
5	Initial admission to non-U.S. Armed Services hospital, transferred to military hospital (non-AD only) (MTF of Initial Admission and MTF Transferred From must be coded)
6	Transferred from U.S. Army hospital (MTF of Initial Admission and MTF Transferred From must be coded)
7	Transferred from U.S. Navy hospital (MTF of Initial Admission and MTF Transferred From must be coded)
8	Transferred from U.S. Air Force hospital (MTF of Initial Admission and MTF Transferred From must be coded)
L	Live Birth in this hospital
C	Carded for Record Only (CRO)
S	Ambulatory Patient Admission (APA) resulting from Ambulatory Procedure Visit (APV), Direct to military MTF.

Element Name: Ward
Position: Free Text Field
Length: Free Text Field

Definition: The ward or unit the patient was admitted.

Enter the ward/nursing unit to which the patient is admitted. Leave blank for CRO cases.

Element Name: Name/Relationship of Emergency Addressee
Position: Free Text Field
Length: Free Text Field

Definition: Surname and relationship of emergency addressee of the patient.

Enter the full name of emergency addressee and the relationship to the patient. Leave blank for CRO cases.

Element Name: Address of Emergency Addressee (Include Zip Code)
Position: Free Text Field
Length: Free Text Field

Definition: Street, city and zip code for emergency addressee of the patient.

                Enter the street, city and zip code of emergency addressee of the patient. Leave blank
                for CRO cases.

Element Name: Telephone Number of Emergency Addressee
Position: Free Text Field
Length: Free Text Field

Definition: Telephone number with area code for emergency addressee of the patient.

                Enter the area code and telephone number of Emergency Addressee of the patient.
                Leave blank for CRO cases.

Element Name: Name and Location of Medical Treatment Facility
Position: Free Text Field
Length: Free Text Field

Definition: Name and Location of Medical Treatment Facility

                Enter the name and location of the reporting Medical Treatment Facility.

Data Element: Type of Disposition
Position: 73 - 74
Length: 2

Definition: An indicator of the patient's status upon departure from the hospital.

                Enter the appropriate disposition data code relating the patient disposition. Use the
                disposition code "50" (CRO-Other) for selected conditions of treatment medical, legal, or
                other significance for which inpatient treatment is not required.

Active Duty Patients and Separations	
Code	Name
01	Returned to duty
02	To duty from TDRL (includes CRO)
03	To PDRL from TDRL (includes CRO)
04	AWOL (Dropped from Rolls)
10	Separation/Retired--PDRL (Including CRO)
11	Separation/Retired--TDRL (Including CRO)
12	Separation W/Severance pay (Including CRO)
13	Separation WO/Severance pay (Including CRO)
14	Nondisability separation for drug/alcohol abuse at or after transfer or referral to non-U.S. Armed Services MTF
15	Separation for failure to meet medical procurement standards (Including CRO)
51	CRO-Killed in action (KIA)

Nonactive Duty Patients	
Code	Name
05	Discharged Home
06	Left against medical advice (AMA)
26	Discharged to civilian acute care facility
27	Discharged to civilian skilled nursing facility or long-term psychiatric
28	Discharged to civilian residential intensive care treatment facility or substance abuse

Active Duty and Nonactive Duty Patients	
Code	Name
21	Transferred to Army MTF
22	Transferred to Navy MTF
23	Transferred to Air Force MTF
24	Discharged to other federal facility (VA, IHS) excluding Army, Navy, Air Force MTF
30	Died during inpatient stay
41	CRO-Dead On Arrival (DOA)
42	CRO-Emergency Room (ER) Death
50	CRO-Other

NOTE: Disposition code "50" used for selected conditions of medical, legal, or other significance for which inpatient treatment is not required.

Data Element: MTF Transferred To
Position: 75 - 80
Length: 6

Definition: The MTF code that identifies the medical treatment facility the patient is being transferred /Moved to (Disposition Type is transfer) in order to continue this episode of care.

For direct admission to your facility, leave this field blank.

Enter the appropriated code of Medical Treatment Facility the patient is being transferred to (Military, civilian, etc.). The entire code should be no more than six character and left-justified. If transferred to a U.S. military facility, proceed as follows:

Army: Enter A followed by MTF code.
Navy: Enter N followed by MTF code.
Air Force: Enter F followed by MTF code.

If patient is Transferred/Moved to a civilian facility contact the Data Input Section for guidance.

Use the MTF codes shown on page 3.

Data Element: Date of Disposition
Position: 81 - 86
Length: 6
Format: YYMMDD

Definition: The year, month, and day that a patient was disposition/discharged from the reporting medical treatment facility (or, for total absent sick cases, from the facility in which he was admitted).

Enter the date of disposition from your MTF. If the record is being prepared for a patient for whom you have administrative responsibility while in a civilian hospital, enter the final date the service member was removed from the patient census. In a CRO case, enter the same date as Date of This Admission.

Name	Range
Year	1899-current year
Month	01-12
Day	01-31

Data Element: Clinic Service - Admitting
Position: 87 - 90
Length: 4

Definition: The clinic service the patient was admitted to at the reporting facility.

Enter the initial clinic service the patient is assigned to upon admission. Leave positions blank for total absent sick patients whose entire period of hospitalization was spent in that status. For CRO cases leave blank.

Data Element: MTF Transferred From
Position: 91 – 96
Length: 6

Definition: The MTF code that identifies the medical treatment facility the patient transferred from (Source of Admission is transfer) during this episode of care.

Enter the appropriated code of Medical Treatment Facility the patient is being transferred from (Military, civilian, etc.). The entire code should be no more than six character and left-justified. If transferred from is a U.S. military facility, proceed as follows:
Army: Enter A followed by MTF code.
Navy: Enter N followed by MTF code.
Air Force: Enter F followed by MTF code.

If patient is Transferred/Moved From a civilian facility contact the Data Input Section for guidance.

Use the MTF codes on page 3.

Data Element: Date of this Admission
Position: 97 - 102
Length: 6
Format: YYMMDD

Definition: The year, month, and day that a patient was admitted to the reporting medical treatment facility (MTF).

Enter the appropriate date the patient was admitted to the reporting MTF. Leave blanks for total absent sick cases (source of admission 3) because they were never admitted to the reporting MTF.

Name	Range
Year	1899-current year
Month	01-12
Day	01-31

Data Element: Geographic Location of Occurrence
Position: 103- 104
Length: 2

Definition: The state, vessel, or country code for patients treated during deployment.

Enter appropriate location code of state, location code of country, or location code of vessel for all patient treated during deployment. The receiving MTF for a transfer case must record the original location of occurrence code.

Data Element: MTF of Initial Admission
Type: Text
Length: 6

Definition: The MTF code of the first MTF this patient was admitted to during this episode of care.

Direct admission to your facility, leave this field blank.

Enter the appropriated code of Medical Treatment Facility the patient was initially admitted (Military, civilian, etc.). The entire code should be no more than six character and left-justified. If initial admitted to a U.S. military facility, proceed as follows:

Army:	Enter A followed by MTF code.
Navy:	Enter N followed by MTF code.
Air Force:	Enter F followed by MTF code.

If patient is initially admitted to a civilian facility contact the Data Input Section for guidance.

Use the MTF codes on page 3.

Data Element: Date of Initial Admission
Position: 111 - 116
Length: 6
Format: YYMMDD

Definition: The year, month, and day that a patient was first admitted to the medical treatment facility (MTF) of initial admission for this uninterrupted episode of care.

Total absent sick cases, transfer patients, and those admitted from absent sick status, enter the date when first admitted for this continuous period of hospitalization. Leave blank for all other cases.

Name	Range
Year	1899-current year
Month	01-12
Day	01-31

Data Element: For Local Use
Position: Free Text Field
Length: Free Text Field

Definition: Additional data of patient admitted.

                This is a free text field to be completed using the admission and discharge diagnoses
                codes, Procedure codes, Cause of Injury information to include Who, How, What, When,
                Where, Time and Date injury occurred, and Very Seriously Ill (VSI) data.

Data Element: Admitting Officer (Signature, as required)
Position: Free Text Field
Length: Free Text Field

Definition: Name of admitting Officer.

                Enter the name of the physician or other care provider authorizing admission. If the A &
                C Form is used as the admission authorization, the admitting officer will sign this item.

Data Element: Signature of Admitting Clerk
Position: Free Text Field
Length: Free Text Field

Definition: The admitting clerk signature.

                Self-explanatory.
